

A LIVEABLE INCOME FOR ALL

**Australia is a rich country. We have the world's highest median income.
Yet at least 1 in 6 children and 1 in 8 adults live in poverty.**

Why is there always money for tax cuts for the rich, but never enough to ensure that those on low incomes and welfare payments can survive?

People on Centrelink payments are forced to live below the poverty-line. In the case of job-seekers and students, hundreds of dollars per week below. Who can survive on \$54-a-day?

**No one should have nothing left after they pay the rent.
No one should have to skip meals.**

It is a crisis, but Labor has given people in poverty only bread crumbs.

In 2020, the government showed how quickly poverty can be eliminated, when it introduced the COVID Supplement, lifting millions of people above the poverty line.

Then, it took away that extra money. Those in power choose to keep poverty.

Anti-Poverty Network SA wants to bring together those on low incomes to fight for a society where no one lives in poverty.

We believe in a dignified income for all, above the poverty-line.

Enough to keep a roof over your head, look after your health, and be part of your community.

We need your help to make this happen!
